

Follow the Instructions: TASKS

TASK 1

The Power Tower (Build a tower with Lego blocks)

Instructions:

- The tower must be at least 18 inches tall
- The tower cannot be more than 20 inches tall
- The bottom must be all yellow
- The top must be all blue
- Each person can only touch one color
- At least five different shapes and colors must be used

TASK 2

The Tricky Puzzle: (Put together a 100 piece puzzle)

Instructions:

- Only one student can hook together the border pieces
- Only a second student can hook together pieces that touch a border piece
- Only a third student can hook together all the other pieces
- All additional students can help the others by showing where pieces go

TASK 3

Please Land In: (Drop four cards into an 18 inch square)

Instructions:

- Using the masking tape, create a four square grid. The squares need to be about 18x18 inches.
- Label the squares A, B, C and D.
- Place one team member outside each square.
- If there are five team members, one becomes the pick-up dude.
- The member outside square A takes the deck of cards, and tries to drop a card from shoulder height into the square.
- The arm must be straight out, parallel to the ground. To count, no portion of the card can touch any of the lines.
- If the card makes it inside, the member outside square B immediately picks it up and tries to drop the card into square B. If successful, the member outside square C does the same, and so does member D.
- The task is complete when there are 4 cards in square D.
- If you have a pick up dude, he or she can retrieve the cards to give to the next member.
